

Hinged Welded Bow spring Centralizer

Welded Bow Spring Centralizers has more Restoring Force as compare to Non Welded Centralizer. The Centralizers have Bow Spring strongly welded to the End Collar under required temperature and condition with extra low Hydrogen coated Electrodes. Integral hinge folded on the inside stay intact even under extreme stress. The End Collars are designed with a Reinforcing Rib stamped into the End Collar to give maximum structural toughness.

Features

- These are shipped in half assembled condition for economical in freight and storage costs
- Special Iron Phosphate coating process to prevent from Rust and insures stocking in the open for a long time.
- Supplied with stop collar and hinge pin
- Developed to exceeds API 10D standards
